

CAPABILITIES STATEMENT

Celebrating 20 years of service, Satcom Resources provides a single source destination for satellite communications (SATCOM) products, systems, and solutions. We are a value-added supplier and stocking distributor of satellite ground station equipment for antenna's, RF/amplifiers, baseband equipment and remote terminals for fixed, tracking, flyaway, mobile, COTP, COTM applications.

We solve sourcing and procurement problems by providing a comprehensive suite of technical sales, smart sourcing, large inventory, financing, just in time delivery and global logistics (RESOURCES) that are custom built for our industry.

Our firm exists to save you time, eliminate complexities and reduce the overall cost of satellite equipment procurement, deployment, and installation.
